#9 ER 911® is used for support before, during and after emotional, mental or physical trauma. Some direct physical indicators are conditions associated with anxiety, phobias, accidents, upcoming (or recovering from) surgery, going to the dentist, loss of a loved one/pet, as well as feeling overworked or overstressed.

#9 ER 911® is also great for ‘good news’ situations like weddings, promotions, public speaking, family gatherings, a new baby in the family, moving, or changes of any kind. It is also the one to go to when you’ve received bad news or are overwhelmed.

The frequency of dosage is important: During a crisis it is very helpful to spray every 15 minutes under tongue and into the air, breathing deeply as you walk into the mist.

EXPERIENCING STRESS BEFORE, DURING, OR AFTER CERTAIN SITUATIONS?
